

Richard Burton 10k – 2023 – Road Closures

The application request is for permission for the below roads / locations to be closed between 09:00 to 13:00 but there is no expectation that they will actually be closed inclusively through these times. (Except for Jersey Terrace & roads off)

At the end of the location name is a column with the realistically expected closure time based upon the last entrant passing that point and the road being re-opened when safe to do so.

It is an assumption that all traffic etc. from roads leading onto the below streets / locations will be prevented access during the requested times.

It is an obvious given fact that Emergency vehicles will have access in an emergency
